Award-winning documentary filmmaker Howard Hall and the production team behind IMAX films “Deep Sea 3D” and “Into the Deep 3D” return with a new underwater film, “Under the Sea 3D.” Filmed entirely with IMAX 3D cameras for a vivid, immersive viewing experience, this new film takes audiences to locations including, Southern Australia and the Great Barrier Reef, as well as Papua New Guinea and Indonesia in the famed Coral Triangle, for encounters with some of the most mysterious and stunning creatures of the sea.

Discover the habits and habitats of Great White Sharks, Flamboyant Cuttlefish, Leafy Sea Dragons, Giant Stingrays, Jellyfish, Green Sea Turtles, playful Australian Sea Lions, six-foot Garden Eels and a multitude of brilliantly colorful fish and sea life.

Narrated by Jim Carrey, “Under the Sea 3D” offers an inspirational and entertaining way to explore the unique beauty of this rarely seen realm, and an awareness of the impact that global climate change may be having on the oceanic wilderness.
